

RUBATANO LATEST NEWS, up to end of March 2021

As we reported last time, we have been looking at how to provide water pumps for these two dry districts in Gondola town. These have now been completed, as you can see.

Thank the Lord for His wonderful provision!

[1] Josina Machel community with 2,026 people. Their pump was unrepairable, and they were suffering so much to find fresh water. In early March they celebrate this new one, opened by Gondola town & local community leaders:

[illegible]

[2] Madzicuera community with 1,925 people, they have never had a water pump.

This is a new community, mainly people who left their dry fields and came to Gondola for help. God has now supplied a new pump, opened on 24th March 2021.

Recent Cyclones, bringing strong winds & heavy rains

Just over a month ago the constant sun dried up the crops. Now two recent cyclones with winds & rains have devastated many

houses & roofs, and ruined the second planting of maize, the staple crop & diet. Here a tree just missed our

Gondola Care Centre latrine! >>>>>>>

People have been struggling to find &

<<<<<<<< plant sweet potatoes and beans. We pray the Lord will help with a hunger situation which may hit us later this year.

Rubatano Meetings with UNICEF & Dorcas Ministry officials & others, in Chimoio city:

On the second photo you see Carlos explaining the way Rubatano works with its Orphans, the Community leaders, the Social Work & Health departments, the Registry Office, & the Police, and our referral models used. Lastly, in Gondola outside the Hotel, at another meeting led by the IPAZ legal team, Carlos was explaining the Rubatano works in each community.
